

# One Source Consulting

Coming Soon

[Stars & Stripes Technologies](#)

*One Source Consulting is a Veteran Owned Small Business*

JD Edwards Development and Training is what I offer. As an Independent JD Edwards Technical Consultant, I offer out of the box thinking. Whether you are Upgrading your current JD Edwards system or installing a new JD Edwards ERP System, as a Independent JD Edwards Technical Consultant, I will be able to provide the type of thinking, aligned with JD Edwards methodology and direction to help your Upgrade/Install go as smoothly as possibly. I am practiced in most of the modules in JD Edwards. Financials, Distribution, Human Resources, and Transportation, are only some of the modules I have worked with. I have also integrated OPTIM, an archiving software, to work with JD Edwards. I have worked with JD Edwards versions One World B7.3.3 thru Enterprise One 9.0 creating and modifying, Reports, Applications, Interfaces, and Conversions. Feel free to download my resume and contact me directly.

Save money by contacting me directly, Saving money and getting the same work accomplished is the start to making your upgrade or install a success. Contact me directly to save money AND get your work done correctly the first time.
